SLEEPENVIE MISSION

To improve your overall sleep experience so that all the other aspects your life can be optimized. By customizing your sleep preference your bedroom will be transformed into a place of peace and productivity.

SLEEPENVIE MATTRESSES

We don't want you to have another sleepless night; your bed is more than a mattress! We have a bed for every type of sleeper thanks to the innovative technology in each of our mattresses. We offer three lines of mattresses, each coming in standard sizes.

The Hunter Mattress

Hybrid- combination pocket coil springs & gel memory foam

Designed with athletes in mind, Hunter is a 14-inch combo platter of memory foam and coil hybrid technology. This mattress promotes restorative sleep and eases sore muscles through the use of cooling technology. Hunter's got your back. His cooling gel layer adds extra contouring and comfort, ensuring that he's a mattress that stays cool. All the while his individually pocketed coils provide extra support for your comfort. When you sit on the edge, you won't sink because it has foam encasements around the perimeter reinforcing the edges for extra sleeping surface and stability.

The Sofie Mattress

2.8 Lbs cool gel memory Foam + ice yarn cover

Imagine if your whole bed was the cool side of the pillow. Sofie is ten inches, semi-firm with a cooling gel memory foam and ice yarn cover that will keep you comfortable but never cold. Perfect for hot sleepers. Our breathable memory foam provides comfort and stability and spreads your weight evenly across the mattress, relieving pressure points.

The Sleepenvie Signature Mattress

Latex, 2.5 Lbs density memory foam

The Sleepenvie is 10 inches of firmness. The latex is the key because it conforms to your body right away and still provides big-time support. The great thing about Sleepenvie is you feel a weightlessness when you lay down. The dual support absorbs pressure and disperses your weight over the surface of the mattress.
