

*Global-inspired meal kits with a 2 month shelf life. Welcome to #dinnerhack paradise!*

Thank you for your interest in Takeout Kit! I am excited to for you to cook, photograph, enjoy, and write about your experience! I've included this intro to make the writing process easier, but please feel free to email me at [rachael@takeoutkit.com](mailto:rachael@takeoutkit.com) if you have questions. **Social handle:** @takeoutkit

**Our Story:** I'm a huge fan of meal kit services, but found that I didn't get excited about many of the options (chicken dishes and salads) because I could easily cook these dishes myself for less. Part of the reason I started Takeout Kit was to create recipes that you wouldn't normally make at home or might require a trip to a specialty market. There is higher value, in my opinion, when a meal kit gets you out of your comfort zone and adds to your cooking repertoire. This could include teaching you how to use a new ingredient like Korean gochujang or a new technique like folding empanadas. The 2 month shelf life addresses the issue of "meal kit anxiety", the stress of not being able to cook meal kits before they expire. When you live fulfilling life full of travel, worrying about expiration dates is the last thing you want to be doing! Takeout Kits can stay in your pantry until you're ready to cook.

**Ideal for:** GIFTING! Takeout Kits are the most giftable meal kit. Since they are shelf-stable, you can buy them ahead of time, wrap, and give in person. Also great for: occasional home chefs, date nights, college students, new parents, and vacation homes.

**Takeout Kits include:** a full meal experience for 4 people starting with the background of the dish, a simple recipe card, high quality and hard-to-find global ingredients, and a list of necessary kitchen supplies. We also give suggestions for optional add-ins and drink pairings.
