

a bright idea!
a colorful no-spill cup
with an integrated,
soothing nightlight!

litecup

- Effective non-spill valve.
- 360-degree cup edge means you can drink from anywhere around the rim.
- Free flow natural drinking started by a small suck.
- The nightlight means you never lose your cup at night!
- Cup rim helps to ease the bottle / spouted sippy cup transition.
- Important for long-term oral health.
- No straws or spouts which can be used for comfort sucking.
- Light and robust for everyday use.
- Great for travel and/or camping.
- Light sensitive - No need to worry about turning it on or off.
- Manually switched off to save on battery life.
- Holds non-carbonated liquid.
- Easy to clean.
